After a reset (resetting to factory settings) this will happen

"Admin" password no longer accepted

1 question:

After a reset (resetting to factory settings) the "Admin" password is no longer accepted!

Answer:

For security reasons, the default password changed with the last software update.

The password "Admin" has been changed to the last 5 IMEI numbers of your device which you can find on the back (behind the battery).

will be found.

1 question:

After a reset (resetting to factory settings) the "Admin" password is no longer accepted!

Answer:
